GTC Workshop Organiser's Annual Report 2021-22

Thanks to Covid the face to face GTC workshops were again impractical so a limited run of e-workshops continued.....

In June 2021:

'Bonded Cellular' with Ian Brash of GTC sponsor AVIWEST.

- What is bonded cellular?
- Diversity of networks and connections
- Latency; friend or foe?
- PAYG SIMs versus contract SIMs
- Get off the grass!
- Pitfalls of using data roaming SIMs when abroad
- To recce or not to recce?

In January 2022 – Carnets – a 2022 Update

- What is an ATA Carnet?
- Why should I use one?
- How do I use an ATA Carnet?
- What has changed since Brexit?
- What happens if I don't use an ATA Carnet correctly?
- What are the benefits for GTC members?

In January – Making Tax Digital for Freelancers with David Thomas

- What will change from April 2022?
- What will change from April 2024?
- What is 'cloud-accounting' software?
- How much will it cost?
- How do you keep digital records?
- Are tax returns a thing of the past?
- Are accountants a thing of the past?
- Where to find out more information

Plans are afoot for a short series of Q & A e-workshop sessions with accomplished GTC professionals - these have had to be postponed over recent months. Face to face workshops are now also a possibility. Planning is also ongoing for workshop speakers and exhibitions for our special 50th Anniversary celebration and awards event in November.
